### Classes/Leagues for 2023

Introduction to 3-D Archery, Introduction to Field Archery Class, and Introduction to Target are classes/leagues that are free to all Blackhawk Members. Memberships must be purchased prior to the class. These classes are intended for all age groups and experience levels. They are designed for people who have shot some archery and have their own equipment.

The classes will teach the participants about how to safely take part in each type of archery by mentoring their participation in a 3 week league. Participants will learn basic rules, scoring, and safety procedures for each type of archery. Mentoring and coaching will be provided for beginning archers. Beginning archers are encouraged to attend regardless of skill level.

League/Class will be limited to 16 people for each. Email Ed Ludwig at [edwardludwig@charter.net](mailto:edwardludwig@charter.net) to enroll in the class by May 1st. Please include name, class interested in, and phone number in your email.

Calendar revised on 4-5-23
